

# Bharanieeswaran R

Coimbatore, Tamil Nadu, India | ✉ [bharanieeswaran.r@gmail.com](mailto:bharanieeswaran.r@gmail.com) | [in LinkedIn](#) | [GitHub](#)

## Summary

Computer Science Engineering student focused on software engineering with hands-on experience in **Java, Spring Boot, React, Python, and MySQL**. Strong foundation in **Data Structures and Algorithms, OOP, DBMS, and REST API** development, with experience building full-stack and machine-learning applications.

## Education

**KPR Institute of Engineering and Technology**  
*B.E. Computer Science and Engineering*

**Expected May 2027**  
*Coimbatore, Tamil Nadu*

## Technical Skills

**Languages:** Java, Python, C | **Frontend:** HTML, CSS, JavaScript, React | **Database:** MySQL  
**Backend:** Spring Boot, Flask, REST APIs | **Tools:** Git, GitHub, VS Code  
**Core:** Data Structures and Algorithms, OOP, DBMS, Machine Learning, Cloud Computing

## Internships

### Elevate Labs

*Machine Learning Intern*

**2025**

*Remote*

- Completed a hands-on machine learning internship focused on **Python, data preprocessing, model development, and machine learning workflows** through practical project-based tasks.
- Worked with **Scikit-learn, Pandas, and NLP techniques** to process textual data, extract relevant information, and apply machine learning concepts to real-world problems.
- Gained practical experience in developing and testing machine learning solutions, analyzing results, and integrating ML components into Python-based applications.

### IBM SkillsBuild – Edunet Foundation

*AI and Cloud Intern*

**2025**

*Remote*

- Completed an AICTE-supported internship focused on **Artificial Intelligence and Cloud Computing** through technical training and practical exercises.
- Worked with IBM SkillsBuild resources, AI tools, cloud concepts, and fundamentals of developing cloud-based AI solutions.

## Projects

### DevConnect – Developer Collaboration Platform | *Java, Spring Boot, React, MySQL*

**2026**

- Developed a full-stack platform where developers create skill-based profiles, discover projects, and connect with other developers for collaboration.
- Built **RESTful APIs using Spring Boot** for managing users, profiles, skills, projects, and team requests with MySQL for relational data storage.
- Implemented authentication, project creation, developer search, and project join-request workflows with accept/reject functionality.

### AI Resume Ranker – Resume Matching System | *Python, Flask, Scikit-learn, NLP*

**2025**

- Built an AI-powered web application to analyze and rank multiple resumes according to their relevance to a given job description.
- Implemented resume parsing, text preprocessing, and **TF-IDF vectorization** with cosine similarity to calculate resume-job description relevance.
- Added multi-resume processing with downloadable **PDF and CSV reports** using Flask, Pandas, and Scikit-learn.

## Certifications

- IBM** – Getting Started with Artificial Intelligence Jul 2025
- IBM** – Journey to Cloud: Envisioning Your Solution Jul 2025
- IBM** – Cloud Essentials Jul 2025
- Zscaler** – Fundamentals of Cybersecurity (EDU-102) May 2025
- HackerRank** – Java (Basic) Dec 2024
