PROFESSIONAL SUMMARY

Aspiring Software Engineer with hands-on experience in Java, Spring Boot, MERN stack, SQL, and REST APIs. Experienced in building full-stack and AI-powered applications through internships and projects, with a strong foundation in Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, DBMS, and Computer Networks.

EDUCATION

KPR Institute of Engineering and Technology CGPA: 8.26/10	2023 – 2027
<i>B.E. Computer Science and Engineering</i>	Coimbatore, India
KG Matriculation Higher Secondary School 91.33%	2023
<i>Higher Secondary (HSC)</i>	Coimbatore, India

TECHNICAL SKILLS

Languages: Java, Python, C
Frontend: React, JavaScript, Tailwind CSS
Backend: Spring Boot, Node.js, Express.js, REST APIs
Databases: MySQL, MongoDB, Redis
Tools: Git, GitHub, Docker, Maven, Postman
Security: JWT Authentication, API Security
Concepts: DSA, OOP, DBMS, CN, OS, Low-Level Design, SOLID Principles, AWS Fundamentals

EXPERIENCE

Infosys Springboard	2026
<i>Full-Stack Intern – AI-Driven Expense Tracker & Budget Analyzer</i> 	Remote
- Developed a full-stack finance platform using React, Spring Boot, and MySQL, implementing 10+ REST APIs for expense tracking, budget management, user authentication, and transaction management. - Implemented JWT-based authentication and ML-driven expense classification for automated transaction categorization. - Optimized backend queries and API performance to improve application response time.	
Elevate Labs	2025
<i>AI/ML Intern – TalentScore AI Resume Screening Platform</i> 	Remote
- Built a full-stack AI screening platform using React, Flask, and REST APIs, processing 100+ resumes with NLP pipelines using spaCy and scikit-learn for skill extraction and ranking. - Implemented resume preprocessing and skill-matching workflows, and containerized the application with Docker for reproducible deployments.	

PROJECTS

Real-time Collaborative Code Editor & Whiteboard <i>React, Node.js, Socket.IO, Redis, MongoDB</i> 	2026
- Designed and built a real-time platform for multi-user code editing and whiteboard collaboration using WebSockets. - Leveraged Redis Pub/Sub for scalable multi-instance communication. - Optimized events using debouncing and volatile updates, reducing network overhead and improving real-time synchronization; implemented versioning and session recovery for fault tolerance.	
AI Interview Simulator <i>React, Node.js, Express.js, MongoDB, JWT, Groq API</i> 	2026
- Developed an AI-powered interview simulator with role-based question generation, JWT authentication, and interview session management. - Integrated Groq LLM APIs for adaptive question generation, answer evaluation, and personalized feedback with performance analytics.	
StockSync – Inventory Management System <i>React, Node.js, Express.js, MongoDB, JWT</i> 	2026
- Built a secure inventory management platform handling 1000+ records with JWT authentication. - Developed 10+ REST APIs and optimized query performance using database indexing.	

ACHIEVEMENTS & CERTIFICATIONS

400+ DSA Problems (LeetCode, HackerRank, GeeksforGeeks)	EF SET C2 English Proficient
HackerRank Certifications (Problem Solving Intermediate, Java, SQL)	Infosys Java Full Stack Developer
Cisco Networking Academy (CCNA, Networking Essentials)	AWS Cloud Practitioner Essentials
Cloud Computing (NPTEL)	Red Hat AI Foundations Executive
Oracle Cloud Infrastructure Foundations Associate	Oracle Cloud Infrastructure AI Foundations Associate
